

### NOTICE INVITING WRITTEN PUBLIC COMMENT

**NOTICE** is hereby given that the Air Pollution Control Officer of the Bay Area Air Quality Management District invites interested persons to submit written public comments on the proposed Major Facility Review permit for the following Facility:

Application	Facility #	Facility Name	Address, City	Type of Operation
25736	A2180	Gaylord Container Corporation	2301 Wilbur Avenue Antioch, CA 94509	Electricity

Notice is also given that a proposed Title V permit for this facility was initially noticed for public comment on June 1, 2000, but was not issued as proposed as a result of comments received. The issues surrounding the comments were resolved, but the facility ceased operations in the fall of 2002 before the final Title V permit was issued. On January 22, 2003 Harbert Power Corporation notified the District that they had an agreement in principal to purchase the facility with the intention of operating only the power production equipment under the new name "Harbinger Independent Power Fund II, LLC". This proposed Title V permit reflects the operation of Facility #A2180 as a qualifying cogeneration facility primarily engaged in selling electricity to PG&E. Although the District anticipates that Harbert Power Corporation will be the eventual owner of this facility, as of the date of this public notification the transfer of ownership has not been completed. The District intends to issue the final Title V permit to the legal owner of the facility as of the issuance date.

The Air Pollution Control Officer invites written comment on the proposed Title V permit described above. Comments must be received by **October 16, 2003**. The public may also request a public hearing for this permit.

Major Facility Review Permits are also subject to review and approval by US EPA. If US EPA has not objected to a proposed significant revision and District has not addressed a public comment in a satisfactory manner, the public may petition US EPA, Region IX, Operating Permits Section at 75 Hawthorne Street, San Francisco, CA 94105, within 60 days after the end of US EPA's review, to reconsider the decision to not object to the permit. The beginning and end of EPA's review period can be found on EPA Region IX's website at: <http://www.epa.gov/region9/air/permit/epssdata.htm>.

The proposed Major Facility Review permit, application, and evaluation report/statement of basis are available for public inspection at the Antioch Public Library, 501 West 18<sup>th</sup> Street, Antioch, CA 94509 and at the District Headquarters, 939 Ellis Street, San Francisco, CA, in the Permit Services Division, 3rd Floor. For an appointment, please call May Leung at (415) 749-4729. The proposed revised permit and evaluation report are also available on the District's webpage at the following address: <http://www.baaqmd.gov/permit/t5/NOTIFICA.HTM>. Written comments should be directed to Ted Hull, at Bay Area Air Quality Management District, 939 Ellis Street, San Francisco, CA 94109 or by email to [rhull@baaqmd.gov](mailto:rhull@baaqmd.gov). Any request for information or for a public hearing should be directed to Ted Hull at (415) 749-4919.

Dated at San Francisco, the 4th day of September, 2003.

Signed by William C. Norton
